- Experience in developing highly interactive web applications utilizing HTML, CSS, Bootstrap and good understanding in document object model.
- Ensured application responsiveness for all devices by designing screens with clear responsive classes and media queries
- Experience in working with Angular modules, components, templates, directives, pipes.
- Experience in working with Angular routing module, reactive streams library RxJS.
- Experience in developing reactive forms, stepper forms with archwizard and nested forms.
- Experience in consuming REST APIs in services, using dependency injection and testing APIs in postman.
- Optimized applications for maximum speed.

Skill Highlights :

- HTML5
- CSS3
- Java Script
- TypeScript
- Bootstrap4,5
- Angular8-14
- Angular Material

- Git
- Jira
- BitBucket
- Git hub
- Visual Studio Code
- Chrome Devtools
- Confluence

Education :

- BSc (Computer Science) || Sri Srinivasa Degree College || 2017 - 2020
- Intermediate (MPC) || Sri Srinivasa Junior College || 2015 - 2017
- SSC || Nagarjuna Merit High School || 2014 - 2015

Professional Experience :

- Working as a User Interface Developer (UI Developer) in Xacto Services Private Limited, Bangalore . **[15th June 2020– till now]**

Projects :

Project Name: Virtual Accounts **[Nov 2023 – Present]**

Technologies: HTML5,CSS3,Angular Material,Angular15,Typescript

- **Description:** Virtual accounts are bank accounts that have no physical existence, are temporary, and transact on behalf of a real, physical account. Also known as a shadow account, a virtual account has a unique account number that makes it easy to trace the funds coming through it and helps to identify the source or the payer.

Project Name: Temenos Money **[March 2022 – Nov 2023]**

Technologies: HTML5,CSS3, javascript,Angular Material,Angular 12,13,Typescript

- **Description:** Temenos Money empowers you to save more, spend less, see everything, and take back control of financial life. Temenos Money is the easiest way to find subscriptions, manage bills, and even cancel recurring charges with a single click.

Project Name: OBPay **[Dec 2020 – Feb 2022]**

Technologies: HTML5,CSS3,Bootstrap4, javascript,Angular 8,9,Typescript

- **Description:** OBPay EBPP is the most customizable electronic bill presentment and payment (EBPP) solution. It supports one-time, recurring, auto payment options. Also provides different payment channels and methods.

Roles & Responsibilities :

Communination:
- Engage with UI/UX designers to grasp the design vision and transform it into functional interfaces.
- Coordinate closely with back-end developers to guarantee a seamless fusion of UI and data layers.
- Effectively communicate with stakeholders to collect feedback and ensure alignment with project objectives.

Usability and Accessibility:
- Uphold accessibility standards in the UI for users with disabilities.
- Optimize performance for rapid loading speeds and a seamless user experience.

Development and Implementation:
- Build user interfaces using HTML, CSS, JavaScript, and frameworks Angular.
- Apply responsive design principles to ensure UI flexibility across various screen sizes and devices.
- Establish reusable components and libraries to enhance code efficiency and sustainability.
- Create custom directives and pipes to meet specific UI needs.
- Incorporate third-party libraries and APIs to enrich functionality
